

**Product name:** Scorpion™ MTB

**Product presentation:** The Pirelli Scorpion™ MTB range was born from Pirelli's experience and know-how in the world of off-road competitions. Rally and motocross are an integral part of our DNA and were the starting point for the research and development that culminated with the Scorpion™ MTB. The shape of the knobs was based on the experience and technology behind the Scorpion™ MX range, which has been used on every motocross and supercross race circuit in the world, winning more than 65 world titles.

**Description of application:** Mountain bike. From Hard Terrain to Soft Terrain, and including Rear Specific, a model designed for the rear wheel.

**Product Features:** SmartGRIP compound, absolute grip in both dry and wet conditions. Tubeless-Ready.
