

WINTER SOTTOZERO 3

 CAR —  WINTER —  TOURING —  POWER CONTROL

WINTER SOTTOZERO™ 3 is the winter tyre dedicated to high-end premium vehicles. It has been designed taking into account the evolution of the modern vehicles, in order to achieve maximum safety, control and performance in all winter weather conditions.

New compounds and new side design have been used introducing the latest technological features. Furthermore, WINTER SOTTOZERO™ 3 has been co-developed with premium and prestige OEMs.

3D SIPE TECHNOLOGY

Improved handling on dry road condition, reducing the braking distance

WIDER GROOVES

Excellent wet handling and braking performance

DIRECTIONAL DOUBLE ARROWS PATTERN DESIGN

Higher traction on snow

HIGHER SIPES DENSITY

Better grip on snow

FUNCTIONALIZED COMPOUND

High grip in every winter weather condition
