

SCORPION™ WINTER

 SUV —  WINTER —  TOURING

SCORPION™ WINTER has been designed to fit modern SUVs and CUVs, with a special focus on the high-end segment and provides an important contribution to the drivers' safety as it guarantees maximum stability and control in snow, wet and dry conditions.

- Best in class on snow (braking, handling and traction);
- Excellent braking and handling (in wet and dry conditions at low temperatures);
- Lower noise and rolling resistance.

CIRCUMFERENTIAL GROOVES: TWO AND FOUR GROOVES VERSION

Excellent wet handling and wet braking performance

NEW MOULD PROFILE

Progressive and responsive handling in dry conditions

DIRECTIONAL & SYMMETRIC TREAD PATTERN DESIGN WITH MODULAR BLOCK GEOMETRY AND SIPE LAYOUT

Improved handling on snow surfaces and reduced braking distance in all winter driving conditions. Improved traction during cornering, slalom and lane change.

NEW TREAD PATTERN COMPOUND WITH INNOVATIVE MATERIALS

Lower fuel consumptions and maximum grip both on snow and wet road conditions.
