

## **ICE ZERO™ FR**

ICE ZERO™ FR is the ideal choice for those who drive in Nordic winter conditions looking for a high level of stability and control with a superior driving comfort. The ICE ZERO™ FR is the stud-less solution of the Pirelli ICE ZERO™ collection, performance and control at top level. Specifically developed for owners of city/medium cars, premium sedans and SUVs. Featuring also Run Flat Technology.

### **DIRECTIONAL TREAD PATTERN DESIGN**

Enhanced grip on all surfaces and maximum traction

### **SPECIFIC SIPES 2**

That quickly clean the surface from the water film generated by the ice under the tyre for enhanced ice grip

### **HIGH SIPE DENSITY IN THE CENTRAL AREA**

Increased snow retention for an excellent grip on snow

### **3D SIPE TECHNOLOGY**

Stable tread blocks also at high speed, for excellent wet and dry stability

### **INCREASED FOOTPRINT AND IMPROVED REGULAR PRESSURE DISTRIBUTION**

Better traction and braking safety for excellent grip in all road conditions
